

# Physics 120B Project Demonstrations

Mayer Hall Addition 3574 & 3544

Friday, March 22, 12:45 PM to 2:15 PM

Every year, the Physics 120B (formerly Physics 121) students come up with fun and innovative projects interfacing to the real-world. On Friday, 3/22, starting 12:45 PM, this year's batch will present their projects to the rest of the class, and we welcome interested visitors. Space may be a bit tight depending on turnout, but we can likely accommodate several dozen onlookers.

## Projects

This year's project titles are (in proposed order of presentation):

- Manav Singh & Mike Chu: **Darryl the Maglev Train**
- Devon Murphy and Zak Kmak: **Sketch an Etch**
- Chris Parzyck, Eric Cotner, Nara Fayzulina: **Killer Quadro-dactyl-copter**
- Jon Eliashiv and Minyoung You: **Dog on an Optical Leash**
- Priscilla Kelly and Sacha Casciato: **Marble Chromodynamics**
- Ben Hass and Matt Morales: **Triangulating Laser Tracker**
- Mark Kattus: **Rock Bottom Boulder Spotter**
- Lije Delorenzo: **Tilt, Aim, Fire!**
- Angelica Gilroy and William Lim: **Zoolander, the Lost Puppy**
- Melissa Dunn: **Don't Spill the Beans!**

## Friendly, Fun, Fantastic

We want to emphasize the *fun* aspect of the demonstrations, and support the students in what they have accomplished, even if some demonstrations fall short of ambitious dreams. So come with smiles on...
